

High End Hard Drive Chart

This chart is made using thousands of [PerformanceTest](#) benchmark results and is updated daily. These overall scores are calculated from three different tests measuring the read speed, write speed and seek time of hard disk drives. The chart contains drives from many of the major manufacturers such as Seagate, Western Digital (WDC), Hitachi, Maxtor and Samsung. The higher scoring drives in this chart are typically those with greater RPM values (10,000/15,000 RPM) or that are Solid State Drives.
